Originality of design, perfectness of execution, accurate character drawing, clever construction of plot, and good local coloring, are its leading features. The fortunes of the princely line of 'U Estres,' in the French province of Dauphine, are related by the last direct representative of that family—the narrative, extending from a short period before the revolution to the reign of Louis Philippe D'Orleans, is entirely personal, which affords the opportunity of exhibiting the writer's mental introspection, in the manner of Godwin's Culeb Williams. The story, which includes some affecting scenes in Faris during the reign of terror, virtually closes with the fail of Robespierre. Among the dramatic persons of this well-told tale is the dramatis persons of this well-told tale is "Joseph Balsamo, historically celebrated under the title of 'Count Cagliostro,' who played a leading part in the affair of the Diamond Neckiace conspiracy, which so much injured the repulation of Queen Maria Antoinette.
